

PRE KNOWLEDGE

1. Must have email. You can sign-up at yahoo.com(Yahoo) or at gmail.com(Google)
2. Manage to contact customers via email
3. Able to download software or digital products from the internet, using any applications such 'OrbitDownloader, Flashget or anything as such, that was installed in your computer.
4. Able to extract files from the downloaded files using winzip or winrar or any tools that have similar function.
5. Able to upload files to server(Our website)
6. Able to use Microsoft word documents (writing articles), notepad (saving Url), (Powerpoint(teaching tool), Frontpage/kompozer(website building), Paint software and Adobe photoshop(building web materials). It means that all the software stated should be install in your computer. Normally all the current computers have already setup with all these software. If in case, they are not installed, you've to do that on your own. You can install from the internet or buy the CD that contains the required software from the CD store in your area.
7. I've seen that most marketers are doing videos to express their ideas, and these videos could only work with adobe flash player 10 plugin, adobe shockwave player and make sure also to install adobe flash player 10 active x. I would like to suggest to install all the adobe's in your computer. You can get them free at www.adobe.com/go/getflashplayer.

Another problem that I've seen that some people do not know how to activate or open the non active Url address. If you are having any difficulty on that part, then just highlight the address, right click, copy and paste the Url on the web browser or paste it on the search engine and press return to see the content of the web page.

Those are the pre knowledge that you need to know, before building your own website to start internet business online. If you could master this building set up problem, then you're done 90% of your total success of internet business. After that you could do anything you want according to your wish.

The items mentioned may not comply with your real basic knowledge that you've known, but if you find any difficulties on certain parts, you may ask or send your message to f.sulong@yahoo.com Don't worry, you're welcome.
